SPARK™
CLEAR ALIGNER SYSTEM

COMPLETE YOUR BACK-TO-SCHOOL TO-DO LIST WITH AN ORTHODONTIC HEALTH CHECK.

Did you know the American Association of Orthodontist recommends children should see an orthodontist by age 7?

An orthodontist can identify issues that may be developing or develop as they grow. Early treatment may prevent, reduce, or intercept problems from becoming more complicated to treat at a later age.^{1,2}

NOW AVAILABLE!

Clear aligner options for kids and teens! Spark™ their smile by putting a healthy smile on track for the new school year. Teens will love many aspects of Spark Clear aligners such as:

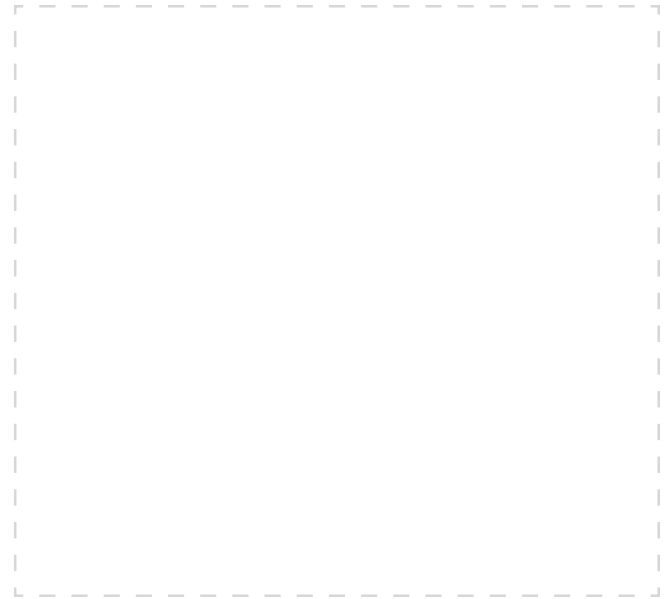

- A nearly invisible, discreet look
- Less stains than the leading aligner brand
- Removable to enjoy their favorite foods, no food restrictions, and easier hygiene care
- Designed to be more comfortable than the leading aligner brand, and more!
